<b>Total</b>		<b><u>250</u></b>	<b><u>0</u></b>	<b><u>86</u></b>	<b><u>33</u></b>	<b><u>0</u></b>

**Violation:** An instance of noncompliance

Class 1 violations are violations that pose an immediate and substantial threat to water quality and that have the potential to cause significant detrimental impacts to human health or the environment. Violations involving recalcitrant parties who deliberately avoid compliance are also considered class I.

Class 2 violations are violations that pose a moderate, indirect, or cumulative threat to water quality. Negligent or inadvertent noncompliance with the potential to cause or allow the continuation of unauthorized discharge or obscuring past violations are also class 2 violations.

Class 3 violations are violations that pose only a minor threat to water quality and include statutorily required liability for late reporting when such late filings do not result in causing unauthorized discharge or allowing one to continue. This class of violations should only include violations by dischargers who are first time or infrequent violators.

**Unclassified Violations:** Violations entered by dischargers or data entry staff and not yet validated by technical staff.

**Priority Violation: No longer applicable after 5/20/2010.** Under the former Enforcement Policy, Water Boards ranked violations as either priority or not priority.

<b>Region:</b>	1 - North Coast	5S - Central Valley, Sacramento Office
	2 - San Francisco Bay	6T - Lahontan, Tahoe Office
	3 - Central Coast	6V - Lahontan, Victorville Office
	4 - Los Angeles	7 - Colorado River
	5F - Central Valley, Fresno Office	8 - Santa Ana
	5R - Central Valley, Redding Office	9 - San Diego
