

Hey Bruce...you wrote:

“BAPPG has become a committee of BACWA, and we'd like the logo to reflect that. We'd like the words "A COMMITTEE OF BACWA" Added to the Bappg logo. Then we'd like to merge the two logos into something new that could go across the bottom of the page. BAPPG logo on the left (with it's new wording) and the BACWA logo on the right. The "new logo format" document below gives the idea.”

This is my interpretation of your request...I stacked the “a committee...” line to balance better with the BACWA logo.

BTW BACWA doesn't show like this anywhere on their site, so I used the same type style as they used when all spelled out....and applied the 2 colors used as appropriately as I could.

Here are the above logos shown reduced to fit the width of the brochure front panel.:

Here are the logos complete...they are way too big to be used side by side, but I wanted to lay out the BAPPG logo with the new text in a way to compliment the BACWA logo in size and shape, and so you could see apples/apples.:
