

Bay Area Clean Water Agencies - Health Project Fish Survey

California Indian Environmental Alliance and Bay Area Clean water Agencies are helping families eat fish safely, understand the fish consumption advisories, and learn how to avoid eating fish high in toxins. Your information will assist efforts to protect public health and cleanup of our water sources. All survey participants will be entered into a raffle to win a car seat. CIEA and CDPH would like to thank all participants for their help!

Please note that under “freshwater fish,” we understand salmon, steelhead, sturgeon, freshwater mussels, eels, etc. Naturally, all information and questions are optional.

Today's Date:		Gender:				
Age: <input type="checkbox"/> Under 18 <input type="checkbox"/> 18-45 <input type="checkbox"/> 46 or older						
Which of the following do you eat? <i>Circle all that apply.</i>		Freshwater Fish (e.g. Salmon, eels)		Seafood (e.g. Mussels, Shrimp)		Seaweed
Not including you, how many people in your household for each of the following gender/age groups eat fish or seafood? <i>Please write a number next to each category, if applicable.</i>		Children 1-17 _____ Women 18-45 _____ Women 46 and older _____ Men 18 and older _____
