**CVSan**  
Castro Valley Sanitary District (CVSD) has been providing high-performance, licensed wastewater services for the community since 1959. Our Customer Service Business Process Improvement is aimed to have a day, 24x7 days a year to ensure that your wastewater keeps running, and works tirelessly on preventive maintenance to minimize the impact of possible sanitary sewer overflows.  
You can do your part to help by only flushing the 3P's: Pee, Poop, and Toilet Paper in the toilet. You will see several items that people often flush down their toilets. Flushing items like these often leads to sanitary sewer overflows and can cause damage to private and public property. Remember your toilet is not a trash can! Only flush the 3P's!
