

BACWA 2023
Tom Mumley
Assistant Executive
SF Bay Water Board

Residual Chlorine Limits

- 💧 Withdrawing water quality objective for USEPA approval
 - Not protective of sensitive species
- 💧 Will establish similar limits based on narrative objective
 - Blanket permit amendment

Nutrient Permit 3?

- 💧 Harmful algal bloom gamechanger
- 💧 Now considering load reductions

Contaminants of Emerging Concern

- 💧 RMP monitoring strategy

 - Wastewater pathway monitoring

 - Organophosphate esters, bisphenols,
and other plastic additives

- 💧 Emerging statewide strategy

Recycled Water

- 💧 New State Water Supply Strategy
- 💧 Nutrient load reduction
- 💧 Discharge of RO concentrate
