Re: Acceptance of Plant-Specific Findings for the Regional Evaluation of Potential Nutrient Discharge Reduction by Natural Systems (Via email only)

Dear Eileen,

On behalf of Union Sanitary District, I have reviewed the individual plant report prepared for the Union Sanitary District, that is included as an appendix to Regional Evaluation of Potential Nutrient Discharge Reduction by Natural Systems (Evaluation). The Evaluation was prepared by the SFEI consulting team (Consultants) under a contract with the Bay Area Clean Water Agencies (BACWA) in compliance with the 2019 Nutrient Watershed Permit (Order No. R2-2019-0017, NPDES No. CA0038873) on behalf of the Dischargers. Union Sanitary District staff reviewed the report and offered comments for incorporation into a final draft. A representative group of BACWA members (i.e., Contract Management Group) also directed the Consultants in preparing the individual plant reports and the overall summary for the Evaluation.

I agree the conceptual approach for reducing nutrients via natural systems at our facility is reasonable with respect to the context of the overall report. Furthermore, in accordance with the Watershed Permit requirement for report certification, I certify, under penalty of law, the information pertaining to Union Sanitary District was prepared under my direction or supervision. Based on my inquiry of the person or persons who manage the system or those persons directly

responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Sincerely,

DocuSigned by:
