

**Committee Request for Board Action:** None

In-person meeting at the City of Sunnyvale Water Pollution Control Plant, with 16 attendees representing nine member agencies.

**Plant Tour at City of Sunnyvale**

Members learned about ongoing upgrades to the plant's secondary treatment system, and shared experiences with coordinating construction shutdowns. Participants discussed experiences with BayWork's stacking internship program, staff retention strategies, and interview assistance program.

**Next Meeting:** Potential future meeting locations include San Mateo or Treasure Island, which are both nearing completion on nutrient removal upgrades.
